

ORGANIZATION OF THE BLACK SEA ECONOMIC COOPERATION

Permanent International Secretariat

PRESS RELEASE **On** **THE PARTNERSHIP OF THE BSEC PERMIS IN ORGANIZING** **THE “SOUTH-EAST EUROPEAN CONFERENCES AND EXHIBITIONS”**

The 14th edition of the “*South-East European Conferences and Exhibitions*” on Energy Efficiency (EE) and Renewable Energy (RE), Smart Cities and Save the Planet, organized by Via Expo, based in Plovdiv, will take place in Sofia, on 27-29 March 2018, in partnership with the *Black Sea Economic Cooperation* Organization.

Starting in 2011, this yearly event focuses its interest in many countries, some of which in the wider Black Sea region. Since then, BSEC became a partner, together with other organizations and institutions, in supporting these yearly exhibitions and conferences.

The 14th edition of the “SEE Conferences and Exhibitions” is included in the Calendar of Events of the current Armenian BSEC Chairmanship-in-Office.

The event offers a platform for meeting and interaction between local and international companies that present their products and solutions for cleaner energy, greener cities and for promoting energy-efficient buildings with potential beneficiaries. The “SEE Conferences and Exhibitions” are among the leading B2B events in the region.

Members of business communities and of research and academic institutions from the BSEC Member States are welcome to attend these events.

Detailed information regarding the program of SEE Conferences on EE & RE, Smart Cities, Waste Management and Recycling and about participation in the events can be found on the website of the organizers:
